

COLLABORATION / LINKAGE

BETWEEN

DEPARTMENT OF ZOOLOGY

Dr. V.S. KRISHNA GOVERNMENT DEGREE COLLEGE (A), VISAKHAPATNAM
AND

NATIONAL INSTITUTE OF FISHERIES POST-HARVEST TECHNOLOGY AND
TRAINING(NIFPHATT), VISAKHAPATNAM

In alignment with a commitment to foster cooperation and enhancing academic services, the Department of Zoology of Dr. V.S. Krishna Government Degree College (A), Visakhapatnam and National Institute of Fisheries Post-Harvest Technology and Training (NIFPHATT), Visakhapatnam, hereby formalize this collaborative statement. The collaboration aims to facilitate conduct of trainings, internships to students etc.

Terms of Collaboration:

1. Training:

- Upon mutual agreement, the Principal of Dr. V.S. Krishna Government Degree College (A), Visakhapatnam, will extend cooperation to allow students to get training on post-harvest technology which will benefit the students in their academics that gives them a practical approach to what they have studied theoretically.

2. Talks/Workshops/Seminars:

- The college shall extend support in organizing Resource Talks/online webinars/Seminars duly inviting the scientists of National Institute of Fisheries Post Harvest Technology and Training (NIFPHATT), Visakhapatnam on a mutual agreed time and date which will keep the faculty and students abreast with the current developments in marine fishery.

3. Internships:

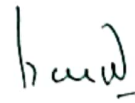

- In tune with the National Education Policy-2020, every student has to complete short-term and long-term internships in industry or government organizations and the both the institutions may collaborate to allow students for short-term or long-term internships duly following the policies of NIFPHATT, Visakhapatnam.

Duration and Review: This collaboration shall come into effect upon signing and shall remain valid until either party decides to terminate the collaboration. Both parties agree to periodically review the effectiveness of the collaboration and make necessary adjustments to ensure its continued success.

(2021-2022)

Name of the Capacity Building On Job Training Programme:

Training on postharvest technology of finfish and shellfish at NIPHHAT, Visakhapatnam from 01/09/2022 to 15/09/2022.

Description of the programme:

On-the-job training at the National Institute of Fish Post Harvest Technology (NIFPHATT) in Visakhapatnam offers a unique opportunity for students interested in fisheries and post-harvest technology to gain practical expertise and theoretical knowledge in this specialized field. Trainees engage in hands-on learning experiences under the guidance of experienced professionals and researchers, exploring into various aspects of fish processing, preservation, quality control, and value addition.

The training curriculum at NIFPHATT covers a diverse range of topics, including modern fish processing techniques, hygienic handling practices, packaging and storage methods, and seafood safety standards. Trainees have access to state-of-the-art processing facilities and laboratories equipped with advanced equipment for quality assessment and analysis. Throughout the training program, emphasis is placed on industry-relevant skills and best practices, preparing trainees for careers in the fisheries and seafood processing sectors.

Additionally, NIFPHATT provides opportunities for trainees to participate in workshops and seminars, and interact with industry stakeholders, fostering a rich learning environment and facilitating networking opportunities. By combining theoretical learning with practical, hands-on experience, on-the-job training at NIFPHATT participants are equipped with the necessary tools and knowledge to address challenges in fish post-harvest technology and contribute to the sustainable development of the fisheries sector.

Outcome of the programme:

After on-the-job training at the National Institute of Fish Post Harvest Technology in Visakhapatnam, students have undergone a transformative learning experience. They gained practical expertise in fish processing, preservation, and quality assurance. The hands-on training equipped them with industry-relevant skills and knowledge, enhancing their employability in the fisheries sector. Additionally, students were benefited from exposure to cutting-edge research and technology, fostering innovation and critical thinking. The training cultivated a deeper understanding of the complexities of fish post-harvest management. Students have emerged as competent professionals with skills to contribute meaningfully to the fisheries industry's growth and development.
