

### **Plantation by Faculty Members**

The practice of involving all lecturers in the plantation program encourages active participation in promoting environmental sustainability at the institution. Lecturers take part in planting and caring for trees or plants on campus or designated areas. This hands-on involvement fosters a sense of environmental responsibility and sets an example for students, highlighting the importance of conservation. By working together, the faculty creates a collaborative approach to environmental care, making it a shared goal. Lecturers also incorporate these green values into their teaching, motivating students to adopt eco-friendly habits in their daily lives.

### **Plantation by the Principal Dr. I. Vijaya Babu**

**Plantation by Dr. P. Jaya,**  
**Vice-Principal**

**Plantation by Dr. R. Sravan Kumar,**  
**Academic Coordinator**
