A close-up photograph showing two hands, one on the left and one on the right, gently holding a small, young tree sapling with thin green needles. The hands are positioned to plant the sapling into dark, rich soil. The background is filled with green grass and other vegetation. The entire image is framed by a thin red border.

## **ME AND MY PLANT (MAMP)**

### **Me and My plant**

"Me and My Plant" is an initiative designed to actively engage students in environmental sustainability through hands-on experience. The goal is to cultivate a sense of responsibility towards nature by encouraging each student to adopt and nurture a plant. Through caring for their own plants, students gain an understanding of clean and sustainable practices, such as proper watering, providing sufficient sunlight, and monitoring plant growth and any signs of disease over time. This practice not only enhances their knowledge of plants and ecosystems but also fosters a personal connection with nature. Students become environmental stewards, contributing to a cleaner and greener environment both at school and in their communities. As they care for their plants, they develop life skills such as patience, responsibility and empathy for living organisms.

As part of this practice, each student is assigned a plant to observe and regularly report on its condition. "Me and My Plant" promotes sustainability and environmental consciousness, aiming to instil lifelong green habits in students while beautifying their surroundings.

## I B Sc Botany Major Students

### III Bsc (BZC) students in plantation work

## **I BSc Botany Major students in plantation work**

## Plantation at Ornamental Garden

### **Students from MPCs involved in garden beautification**

**BA students participated in the beautification of rock garden**

### Students in regular garden work

**Students arranging indoor plants in the verandas enhancing the space with greenery and promoting a healthy environment**

**Students actively involved in creating green verandahs, fostering a sustainable and eco-friendly environment**

### **Rock garden rearrangement**

### **Weeding by Students**

## Weeding by Students

### **Sramadhan by NSS volunteers**

### **Shramadhan by Unnat Bharat Abhiyan**

## Cleaning at Green house

### MPC students participated in the plantation

**Dedicated NCC cadets actively participating in garden work  
contributing to a greener environment**

**"NCC cadets engaged in Sramadhan, demonstrating teamwork and dedication to community service"**
