RESEARCH EXPERIENCE

Ten years research experience in the field of Aquaculture and Microbial analysis

Doctorate Thesis Title: Analysis of Water to check its potability in Ten Panchayats of Ananthagiri Mandal, Visakhapatnam, Andhra Pradesh.

Abstract: The innovative aspect of the present work was to select the nomad panchayaths i.e., Ananthagiri, Chilakalagedda, Kasipatnam, Kivarla, Lungaparti, Narsimharajupuram, Pedakota, Pinnakota, Rampalle and Vengada for the potable water analysis. This thesis reviews the information regarding the different contaminants of water and their risk assessment and provides an overview of the development of the detection methods for the pathogenic microbes in the water. The results strongly suggest that water in Ananthagiri mandalam region shows microbial content beyond the portability range which needs to be disinfected before assumption to avoid water borne diseases. Therefore, a regular scrutiny of water quality for improvement not only would prevent disease and hazard but also checks the water resource from going further polluted. A variety of factors must be carefully assessed to ensure public health protection. These factors include the treatment processes required to achieve high water quality; the quality of the existing water supply and any change in this source after recycled water is blended; system reliability; the regulatory framework and risk management practices. A six-point approach is suggested for improving the quality of water supplied to the 10 Panchayaths of Ananthagiri Mandalam.

M.Phil. Thesis Title: Role of Light, Temperature and Nutrients on the growth and biochemical composition of *Skeletonema costatum* (Greville) Cleve, 1878 and *Chaetoceros neogracilis* (Ehrenberg, 1844) as a feed in Aquaculture.

APRCET-2021 ADMISSION

Prof. Meenal Mishra
Director,

IG/SOS/Bioch./2023
Date: February 9, 2023

Dear Dr. Ch. Shanthi Devi

Greetings from IGNOU! I am happy to inform you that your name has been approved by our Vice-chancellor for writing units of **B.Sc. (Hons.) in Biochemistry**. Thank you very much for agreeing to write the following units of the Fifth and Sixth semester 4-credit courses "**GENE EXPRESSION AND REGULATION (BBCCT-123)**" and "**GENETIC ENGINEERING AND BIOTECHNOLOGY (BBCCT-125)**", which are part of the programme, **B.Sc. (Hons.) in Biochemistry**.

BBCCT-123 GENE EXPRESSION AND REGULATION

Unit-9 (Translation I)

Unit-10 (Translation II)

BBCCT-125 GENETIC ENGINEERING AND BIOTECHNOLOGY

Unit-4: Cloning Vectors for Prokaryotes

Unit-10: Expression of cloned genes

While writing the unit, we would like you to please ensure that:

- the content of the material is factually correct and up-to-date;
- the subject matter is pitched at the right level for our UG learners;
- the examples are appropriate, the exercises contextual and the presentation lucid;
- the language used is simple and easy to comprehend;
- there is uniformity in style of presentation; and the units are written in a cogent and coherent manner;
- the unit should not exceed 5000 words;
- the materials are original and written in a manner that copyright issues do not arise.

The University will provide a token honorarium of Rs. 8000/- (Rs. Eight thousands only) per unit. The expenses incurred towards word processing and art work are reimbursed as per the University norms. The copyright of the materials lies with IGNOU.

With your expertise and experience in this area, I am sure you will help us in creating good quality self-learning materials for the students of the course. My colleague, Dr. M. Abdul Kareem, Assistant Professor in Biochemistry, Email: abdul.kareem@ignou.ac.in, Mob: 9717860446 who is coordinating this course, will remain in touch with you.

A reply communicating your acceptance of this work would be appreciated.

With regards,

To,
