**(2022-2023)**

|   |   |
|---|---|
| <b>Name of Department</b>                   | MICROBIOLOGY  |
| <b>Name of Event Organized</b>              | Community Service Project   |
| <b>Date of Event Organized</b>              | 21-06-2022  |
| <b>Name of the coordinator of the Event</b> | Dr.Ch.Lalitha   |
| <b>No. of Participant (Student +Staff)</b>  | 30 students + 3 staff   |
| <b>Objective of the Event</b>               | To train the students in data collection and survey prevalent among the community and how to prepare the project report.  |
| <b>Description of the event</b>             | Projects such as Post Covid-19 complications and Food & water borne diseases prevalent in Visakhapatnam are allotted to the students of Microbiology. They have conducted survey in the hospitals, primary health care centres and among the public. Each student have taken different areas for survey and collected the information. The designing of the survey form was done by the students which implies the creativity among them. |
| <b>Outcome of the Event</b>                 | Conducted viva-voce on Community Service Project from 21 <sup>st</sup> onwards. Since the students have given ppt presentations of their projects it took over 5 days to complete it.   |
