In addition to its regular activities, the Learning Resource Centre organizes various library and student club events, such as chart making, group discussions, quizzes, seminars, and map-pointing competitions. The Centre offers comprehensive guidance for competitive exams, including civil services examinations. We conduct student counselling activities focused on personality development, soft skills, and communication skills. To support blind students, the Centre has installed JAWS and NVDA software. Additionally, plagiarism checker software is available for both staff and students. We celebrate all library-related days by holding competitions among students and awarding prizes to the winners.
